I am feeling better - thanks! You and Sarah supporting the August deadline is a huge help along with being willing to put more money into the Cadmus contract.

I am almost finished with the Option 5 work for the contract and will start an amendment to add more money and update the WA to add support for technical expertise in addressing some of the more technical comments. The first candidate is the topic of organified metals that Ex. 6 Personal Privacy (PP) raised.

Bruce will be back at work on Monday.

I hope you are feeling a bit better....

Hi Bruce: I'd like to talk with you on Monday about taking on a short term commitment related to one specific technical/regulatory aspect of the Dewey Burdock project. It involves developing a justification for a waiver of the Part 147 South Dakota DI well casing requirements.

Thanks!
